NOW AVAILABLE: A low cost alternative to Viagra® tablets!

Sildenafil, the active ingredient in Viagra®, is now available in a generic 20mg tablet, and it is **much** cheaper than Viagra®.

Example: Five 20mg tablets of Sildenafil is the equivalent to one 100mg Viagra®.

**Price: 50 Sildenafil 20mg (ten 100g doses) for \$80*
(vs. \$300 for ten Viagra® 100mg.)**

Note: This is the FDA approved generic of Revatio® 20mg tablet. The FDA has not approved generic Viagra®, even though the active ingredient is identical, just in a different strength.

It is Myers Drug's desire to assist our clients in reducing our patient's cost and increasing your ability to pay for your ED medication.

We cannot substitute any prescription (or refill) written for Viagra® without a phone call to the prescriber to get authorization for the following Rx:

**RX Sildenafil 20mg #50
 Take 2-5 tablets as needed for sexual activity**

Going forward, just be sure to write all new Rxs for Sildenafil 20mg in the format above.

**As with most generics, Myers Drug offers great prices based on our acquisition cost. We have no control over our competitor's prices, or if they are even stocking this new generic.*
